“ I had the opportunity to work with Frank at the VA Community Living Center as his social worker. It was an absolute pleasure working with him and his devoted family. I would check in with him every morning and when I left and ask how his day was. I made sure he had his raisin bread and a good dinner. My favorite time was when I saw him and his wife together at the CLC just sitting together sharing there love and devotion. Frank will be surely missed at the CLC. My heart goes out for his wife and his family especially Anthony.
