“ I have many fond memories of Mrs Walters ((aka Ms Rita)
She always was a person that encouraged me as a child and young adult. She always had a a smile and made time to speak to me. Best of all was when she would bake my father his favorite cake (pineapple upside down) every year and how much she and my mom non-verbally communicated.
mom didn't speak English and Ms Rita didn't speak Spanish but that didn't stop them . They enjoyed each other's company and communicated very well throughout their 40 plus years of friendship. Ms Rita helped me to see that I could be a successful woman and that is a gift that I cherish.
I loved her. May she rest now that she is with the love of her life
