AS

I felt so sad when I saw the obituary online. Viola was very special to me and left a permanent impression during my youth that has lasted throughout my life. I moved away and on with life and even checking online last year for an address to mail a card and surprise her, never following through, I went back yesterday with the same intention and discovered the obituary. Girls if you see this... not a birthday goes by without individual thoughts of you all and Henry, Every year for almost 40 years!! I'm sorry for the loss of your Mother. She was so special

*All my Love,
